0.1 Purpose and Scope

0.1.1 Purpose

The purpose of this document is to provide a description of how the Integration Testing is planned. The purpose of the integration testing is to test the right interaction between the various components described in the Design Document (DD,2.3).

0.1.2 Scope

The scope of the developed software is to provide an interface between the users and the taxi drivers. The application is in charge to simplify the requests and the reservation of the rides and the management of the city queues.
